KMS client snapshot

Commercial Asset Management company headquartered in Thailand

The client, specializing in debt restructuring (non-performing loans) and disposal of properties for sales (non-performing assets), has 24 offices across Thailand and 1,200 employees.

CHALLENGES

- The company required quick reports to meet its dynamic requirements and to consolidate data from multiple systems, presented in an easy to understand format.
- Automating the process of creating reports for top management.

BENEFITS

- Reduced reporting times by weeks.
- Improved consistency and accuracy of data throughout the organization.
- Enabled end users to perform self-serve data analysis catering to their ad-hoc needs without having to wait for IT assistance.

SOLUTION

- Deployed solution to 160 users across organization:
 - **Financial Analysis** - cash flow, financial planning, balance sheet, P&L.
 - **Core Business Analysis** - non-performing loan (NPL), non-performing assets (NPA).
