KMS client snapshot

Wholesale group headquartered
in Europe

The client has 37 subsidiaries in 6 continents
and 5,700 employees.

CHALLENGES

- Unable to get timely information in the required format from their ERP (ORION).

BENEFITS

- The client now can analyze Supply Chain costs including overall SCM costs and COGS.
- Find and identify opportunities to improve Inventory Management Efficiency.
- Analyze SCM flexibility including Order Response Time and Production Flexibility.

SOLUTION

- Deployed solution to 270 users across Asia:
 - **Supply Chain Management (SCM) Analysis** - backorder, % IFOT, fill rate, on time shipping.
 - **Inventory Analysis** - inventory turns, stock out.
 - **Purchase Analysis** - average purchase order cycle time.
 - **Warehouse Management System (WMS) Analysis** - cycle count.
